Dr. Tarit Kumar Bose, 87, of Los Angeles, California, passed away on February 13, 2026, after illness.

Born in Bihar, India, he earned his undergraduate engineering degree from University of Munich, Germany (1960) and Doctorate from University of Stuttgart, Germany (1965). He worked at National Aeronautical Laboratory, Bangalore, India; NASA Jet Propulsion Laboratory, Pasadena; and Indian Institute of Technology Madras. In 1998 he moved back to Los Angeles working with Metacomp Technologies. Tarit was an acclaimed aerospace engineer and author of 10 technical reference books used in education across the world, and a few non-technical books.

He is survived by his wife, Preetishree Bose; his daughter, Dr. Mohua Bose; his son, Manjul Bose; his son-in-law, Dr. Sumit Bose; and his grand-daughter, Mihita Bose.
